to save from that condemnation, which sin and transgression had already brought upon all men. He made brief reference to the "Christian Science" explanation which was printed in "The Leader" Thursday, merely to show that there was nothing new in it, as it was taught thousands of years before Christ was born and crucified.

He injected some of his personal experiences, "as some members of my family are afflicted with this combination of Pantheism, Entertainism and Eddysism." He compared the sayings in Mrs. Eddy's book with the numerous declarations of Jesus. He showed by the religious genius that nearly every follower of Mrs. Eddy had been proscribed from some other and few if any were "elevated" from the ranks of sinners. He told his hearers where they could find the complete record of Mrs. Eddy and her divorce careers, as well as her chance of the post from "Metaphysical Healing" to "Christian Science" without a single change of the contents of the package.

The evangelist showed the source of her condemnation; that it was for real and vital sin—not any imaginary sin in our lives that laws in God and man were made to be obeyed and the transgression an error in the mere course of condemnation.

"Tears came as the result of our condemnation and to save us from the penalty of our transgressions, this condemnation is not the result of the coming of Jesus, but the cause of it."

The request to sinners to accept the merit of God and the intercession of Jesus was shown, showing that the garden of all just sins through the blood of the crucified Savior was the only way of escape from this condemnation. All this was compared to the teachings of Mrs. Eddy.

## "NEVER AGAIN" SAYS BILL

Sheriff Bill Sherwood returned this morning from McAlester where he delivered three prisoners to the state prison warden. "I arrived at the McAlester jail in time to witness the execution of Henry Bookman," said Sherwood today. "And I want to say right now that I don't want to witness another one. The work was done neatly and with dispatch; however, and it seems to be the general opinion of those who were present at this event and who before had witnessed executions by the hanging method, that the electric way is the only way," he said.

Contrary to expectations, Bookman met his fate with much fortitude, said the sheriff.
